

SLEDGE HOCKEY EQUIPMENT LOAN APPLICATION

BC Hockey Sledge Hockey Information

BC Hockey has acquired a number of sleds and pairs of sticks for utilization in various sledge hockey programs throughout the Province. These sleds are adjustable and come in a variety of sizes to accommodate all athletes. These are standard sleds that Hockey Canada uses for many development and introductory events, and can also be modified as players improve to mirror more closely the equipment used at the elite level.

While BC Hockey will be using these sleds for various development programs throughout the season, there will be an opportunity for Minor Hockey Associations to borrow them from BC Hockey. By submitting the completed application form MHA's can request the sleds on a first come first served basis. Loan periods may be adjusted by demand from other users. Sleds may be on loan for up to one (1) month. Included with the sleds will be:

- Detailed Assembly instructions
- All tools required
- Basic "How To" manual

All programming must be approved by BC Hockey. For programs involving non-members the MHA must submit a "Try Hockey" request to the BC Hockey office.

For additional information please contact the BC Hockey office (250-652-2978) or (info@bchockey.net).
