

## SAFETY AND RISK MANAGEMENT MANUAL

---

### **“Team First” Game and Conduct Management Initiative**

This BC Hockey developed program revisits the positive social values of Fair Play - integrity, respect and fairness - which are essential elements of the game as we strive to live up to our mission statement.

The attached program document is intended to serve as a guide/template to assist members in defining expectations, establishing a consistent approach and delivery of service in these areas of participant attitudes and behavior.

Associations are encouraged to substitute their organization name, incorporate the initiative into their own Constitution and Bylaws and implement the initiative within their membership.
